Ismael Belem

Cybersecurity Analyst | Incident Response | Threat Hunting | Detection Engineering

North Bergen, NJ | 929-326-8527 | belem2010@hotmail.fr
ismaelbelem.com | LinkedIn | Github

Professional Summary

Cybersecurity professional with 4+ years of experience in managed security operations, endpoint detection and response (EDR), SIEM investigations, threat hunting, vulnerability management, and security control improvement. Proficient in CrowdStrike Falcon, Microsoft Sentinel, Wazuh, Microsoft Defender, and automated incident containment. Holds a Master's degree in Digital Forensics and Cybersecurity and multiple Microsoft security certifications. Currently developing hands-on experience in AWS security.

Technical Skills

SIEM & EDR: Microsoft Sentinel, CrowdStrike Falcon, Wazuh, Splunk, Microsoft Defender.

Incident Response & Threat Hunting: Incident triage and investigation, malware and phishing analysis, business email compromise (BEC), account compromise, threat hunting, host containment, MITRE ATT&CK.

Detection & AI Automation: Detection rule development, alert tuning, dashboards and workbooks, CrowdStrike Fusion SOAR, PowerShell, Python, n8n, Workflow Automation, AI-Assisted Troubleshooting.

Threat Intelligence & OSINT: MISP, Shodan, AbuseIPDB, Abuse.ch, Lumu, SpiderFoot, Maltego.

Vulnerability Management: Nessus, Greenbone, Cavelo, Rapid7.

Cloud, Systems & Networking: Microsoft Azure, AWS, Google Cloud Platform (GCP), Windows, Linux, TCP, VLANs, Docker, VMware, Proxmox.

Digital Forensics & Frameworks: Autopsy, FTK Imager, Sleuth Kit, Wireshark, HxD, Prefetch and Jump List analysis, NIST CSF, Zero Trust, Defense in Depth.

Professional Experience

Cybersecurity Analyst II — Sep 2023 – Present

Dataprise (MSSP) — North Bergen, NJ

- Investigate and escalate security incidents involving phishing, malware, business email compromise (BEC), account compromise, and suspicious activity using CrowdStrike Falcon and Microsoft Sentinel.
- Analyze endpoint telemetry including suspicious processes, command-line activity, file hashes, and potentially unwanted applications to support threat hunting, incident triage, and identification of indicators of compromise (IOCs) and indicators of attack (IOAs).
- Develop and refine Microsoft Sentinel detection queries using Kusto Query Language (KQL), contributing to detection tuning associated with a reported 25% reduction in false-positive alerts.
- Manage CrowdStrike Falcon policies, coordinate sensor deployments, and support endpoint detection and response (EDR) operations across 400 endpoints.
- Built automated host-containment workflows with CrowdStrike Falcon Fusion SOAR and Attack Disruption to respond to vetted security detections.
- Build security monitoring dashboards in CrowdStrike and Microsoft Sentinel; conduct threat hunting using CrowdStrike Next-Gen SIEM, Microsoft Sentinel, Defender, OSINT, threat intelligence, and MITRE ATT&CK tactics, techniques, and procedures.
- Develop incident response, ransomware, and phishing SOPs and playbooks; train Tier 1 SOC analysts; and communicate investigation findings, vulnerabilities, and remediation recommendations to stakeholders.
- Support security awareness programs for approximately 200 customer accounts using KnowBe4 and Breach Secure Now, including training and phishing simulations; evaluate vendors for efficiency, scalability, and AI capabilities.

Cybersecurity Engineer — Sep 2022 – Sep 2023

Cohere Cyber Secure (MSSP) — Manhattan, NY

- Triaged security incidents, including ransomware, and performed host- and network-based forensic analysis to investigate root causes and preserve evidence.
- Onboarded customers to Wazuh SIEM and developed custom detection rules and parsers, including regex and threshold tuning, to improve alert fidelity.
- Configured CrowdStrike Falcon policies to harden endpoint protection and limit attacker lateral movement.
- Conducted quarterly vulnerability assessments using Nessus and CrowdStrike, documented findings, and coordinated remediation planning with customers.
- Prepared after-action reports and developed incident response, ransomware, phishing, and Wazuh deployment SOPs and playbooks to standardize response and customer onboarding.

Operations Manager Jan 2020 – Sep 2022

Bocaphe Manhattan, NY

- Recruited, trained, and scheduled staff; supported point-of-sale systems, remote troubleshooting, and implementation of new software and systems.

Freelance IT Technician Jan 2013 – Sep 2021

Self-Employed Ouagadougou, Burkina Faso & Manhattan, NY

- Provided hardware maintenance, upgrades, and IT support; installed and configured operating systems, VMware, Wireshark, antivirus, Microsoft 365, Azure, and Linux.

CERTIFICATIONS

Microsoft Certified: Cloud and AI Security Engineer Associate (SC-500)

Microsoft Certified: Security Operations Analyst Associate (SC-200)

CrowdStrike Certified: Falcon Administrator (CCFA-200)

Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)

Microsoft Certified: Azure Administrator Associate (AZ-104)

CompTIA Security+

EDUCATION

M.S., Digital Forensics and Cybersecurity May 2022

John Jay College of Criminal Justice (CUNY) New York, NY

Advanced Certificate, Applied Digital Forensics May 2022

John Jay College of Criminal Justice (CUNY) New York, NY

B.S., Computer Science and Information Security Dec 2020

John Jay College of Criminal Justice (CUNY) New York, NY

A.S., Computer Network Technology May 2019

Borough of Manhattan Community College (CUNY) New York, NY

SELECTED PROJECTS

Threat Intelligence & SIEM Integration Lab | *Proxmox VE, Wazuh, MISP, Sysmon, Python* 2024

- Built a Proxmox-based SOC lab integrating MISP threat intelligence with Wazuh for automated correlation of malicious IP addresses, domains, and file hashes; deployed Wazuh agents and Sysmon to validate endpoint detection and alerting.

Azure Sentinel Live Cyber Attack Map | *PowerShell, KQL, Microsoft Sentinel* 2022

- Forwarded Windows Event Viewer data to a geolocation API with PowerShell and built a Sentinel workbook mapping global RDP brute-force attacks in real time.
